TrueGrain Series™ by Fisher Coating utilizes an advanced pre-finishing system on James Hardie Fibre Cement products to achieve depth and contrast that will make your project unique and beautiful, with the durability of cementitious siding.

Fisher is a pre-stain manufacturing facility based in British Columbia specializing in semi transparent coatings on both wood and fibre cement.

Originally established in 1998 as a painting contractor, Fisher opened the doors of the first pre-stain factory in 2008. Fisher currently operates in an automated manufacturing facility coating building materials for a wide range of customers for of projects throughout North America.
